MEMORANDUM FOR: Chairman, DD/I Historical Board

THROUGH: Acting Director of Economic Research
Director of Strategic Research

SUBJECT: Quarterly Report on OER and OSR
Historical Projects

REFERENCE: Memorandum from Addressee dated
5 September 1967, 8.

1. This memorandum is a consolidated Quarterly Report on the status of the Historical Programs of OER and OSR. As the first Quarterly Report prepared since the division of ORR into two new offices on 1 July 1967, this memorandum also considers the effects of the reorganization on the former ORR Historical Program.

2. This reorganization will affect the responsibility for the implementation of the former ORR Historical Program but does not automatically invalidate the individual projects in the program. Except for ORR-1, "The Office of Research and Reports," all of the other projects approved to date apply primarily to the former Economic Research Area (ERA) or the former Military-Economic Research Area (MRA). Thus the reconstitution of these components into separate offices does not require the replanning of the individual projects, although OER will review the scope and relevancy of its program, as will OSR after it has named its own Historical Officer.

3. OER's interest in the overall history of ORR continues. In addition, OER will assume responsibility for the projects relating to the former ERA. The current status of these projects is shown in Tab A. No new projects were added during the Quarter and all projects listed have previously been approved by the DD/I Historical Board.

4. The projects that now pertain to the mission of OSR are listed in Tab B, which also indicates their current status.
